HOW WE MEASURE SUCCESS

The charts and graphs within provide answers to the **Six Essential Questions** we ask ourselves as a network of schools. We use this data to measure our progress, keep us focused as we grow, and—most importantly—help us keep the promises we make to our students and their families.

Great education transforms lives. By partnering with KIPP, individuals and organizations are making a difference in the lives of nearly 80,000 children across the country, proving what is possible in public education.

are eligible for **federal free or reduced-price lunch (FRPL) ***

receive **special education** services

are designated as **English language learners (ELL) ****

*This figure excludes the 68 schools that did not collect FRPL data because those schools are enrolled in the federal Community Eligibility Program (CEP), which qualifies 100% of their students for free lunch through other federal programs.

**Some schools serve a much higher proportion of ELL students than do others given their location.

KIPP public charter schools are part of the free public school system and enrollment is open to all students. We believe that great teachers and school leaders, a supportive learning environment, and an emphasis on both academics and character are the foundation for student success, and we strive to provide these for every child.

At KIPP, teachers, students, and families are all united toward the same goal—college and a choice-filled life. We believe that an excellent college-preparatory education will set students up for success in whatever life path they choose. Through collective hard work and commitment, KIPP students complete college at a rate that is above the national average for all students and four times higher than that of students from similar economic backgrounds.

While we are proud of our college completion rates, we aspire to something higher. We want KIPP students to complete college at rates that are similar to those of students from high-income families. To achieve this ambitious goal, we're committed to sharing what we've learned, advocating for smart policy solutions, and providing more students with a world-class education that prepares them to lead choice-filled lives.
